01 — Our Promise

A written commitment to the spaces we deliver

Lintel Space Atelier (LSA) is an interior design and execution studio devoted to creating luxurious, functional spaces. Quality is not a claim we make once — it is a standard we guarantee in writing. This charter covers your full home: modular systems, furniture, and every on-site service we execute.

Activate your warranty within 7 days. Cover begins when you register on WhatsApp (message Priya, our care concierge) or by email within **7 days** of project handover or move-in, whichever is earlier. Keep your **Project ID** handy — quote it on every message.

02 — Coverage at a Glance

One home. Every layer covered.

MODULAR KITCHENS

10 YEARS

Cabinets, shutters, drawers & panels — 100% replacement, free of cost.

MODULAR WARDROBES & STORAGE

10 YEARS

Full modular carcass and storage systems built and installed by LSA.

SEMI-MODULAR PRODUCTS

3 YEARS

Maximum coverage term for semi-modular cabinetry.

SOFAS

3 YEARS

Structure up to 3 yrs · foam & cushioning up to 2 yrs.

FURNITURE & SOLID WOOD

1 YEAR

Against manufacturing defects · **lifetime** cover on borer/termite in solid wood.

ON-SITE SERVICES

1 YEAR

Painting, false ceiling, electrical & plumbing — tapering repair-cost cover.

How to read this charter. Each section lists what the product or service covers, the specific failures we recognise as defects, and what falls outside cover. Sections 10 and 11 — the claims process and General Terms — govern the entire charter. Hardware and brand-partner items carry their manufacturers' own warranties, which we help you process.

Raise a ticket in one message. WhatsApp **Priya**, our aftercare concierge, at **+91 90190 33380** with your Project ID and a photo of the issue. Your ticket is logged instantly and a Lintel specialist follows up — no call queues, no forms.

03 — Modular Systems

Kitchens, Wardrobes & Storage

LSA modular cabinetry is engineered for daily use — durable cores, precision hardware and finishes chosen to last. If a covered defect appears within the warranty term, the affected part is replaced free of cost after inspection.

COMPONENT	WARRANTY PERIOD	COST TO YOU
Cabinets, shutters, drawers & panels — kitchens	Up to 10 years	100% Free replacement
Modular wardrobes & storage systems	Up to 10 years	100% Free replacement
Semi-modular products	Up to 3 years	100% Free replacement
Blum, Häfele & Hettich hardware	Manufacturer term	As per manufacturer
Wire accessories, cutlery trays, mats, waste-bins, handles & knobs	Manufacturer term	As per manufacturer
Lighting accessories	—	No claim once sold

Materials or components not expressly listed carry only their manufacturers' warranties, if any.

WE HONOUR THIS WARRANTY WHEN

- ✓ The product is properly maintained and used for normal domestic purposes.
- ✓ It is still owned by the original purchaser.
- ✓ It remains in its original installed position and location.
- ✓ The warranty term has not expired, subject to these terms.
- ✓ Care guidelines in Section 12 have been followed.

THE WARRANTY DOES NOT INCLUDE

- ✗ Labour, installation or transportation costs, and natural wear of finishes and surfaces.
- ✗ Third-party items used with LSA units — electrical & plumbing fixtures, countertops, appliances.
- ✗ Use contrary to LSA instructions, alterations, accidents or abnormal use.
- ✗ Damage from extreme temperature, high moisture, standing water or harsh cleaning chemicals.
- ✗ Cosmetic damage — nicks, cuts, scratches, dents and abrasions from regular use.
- ✗ Damage after cabinet removal, or from work carried out in the area post-installation.

03 — Modular Systems · Continued

What we recognise as a defect

These manufacturing and workmanship failures are covered within the warranty term:

- ✓ **Core bulging.** Unnatural swelling or expansion of core materials.
- ✓ **Surface peeling or bubbling.** Finish layers detaching or bubbling due to material or manufacturing faults.
- ✓ **Delamination.** Laminate or veneer separating from the substrate.
- ✓ **Patchy polish.** Inconsistency in polish arising from workmanship error.
- ✓ **Shutter misalignment.** Alignment failure traceable to installation workmanship.
- ✓ **Hardware malfunction.** Hinges and channels failing in normal use — serviced under the manufacturer's term.

Wood is a living material. Variations in grain, colour, mineral streaks and knots are natural character, not defects. Wood expands and contracts with humidity — minor seasonal movement such as hairline lines at joints is normal. Colour mellows gradually with sunlight and age. To keep panels stable, maintain indoor humidity around 40–50% through the year.

GOOD TO KNOW

- Report any defect within 3 days of discovering it (see Section 10); late reporting may void cover.
- Repair or replace decisions are made by an authorised LSA representative after inspection.
- If a component is discontinued, LSA will substitute a similar equivalent from the current line. An exact match of finish or appearance with existing units cannot be guaranteed.
- Replacing a part does not renew the warranty — replaced parts carry the remainder of the original term only.
- Unauthorised repairs, alterations or dismantling void the warranty for the affected product.
- Damage from pests — termites, ants, borers, rodents — is excluded for modular cabinetry (solid wood furniture carries its own lifetime borer/termite cover, Section 04).
- Specifications may evolve under LSA's product-improvement policy; no representative can extend the scope of this warranty.
- LSA is not liable for direct or indirect losses arising from defects, delays or installation faults.

Jurisdiction. These terms are governed by the laws of India, with the courts of Bengaluru holding exclusive jurisdiction over any dispute.

04 — Furniture

Sofas, Beds & Solid Wood

From sofas and dining tables to beds and outdoor pieces, LSA furniture is chosen and crafted to elevate your space — and backed against manufacturing defects from the date of delivery.

COVERAGE	WARRANTY PERIOD	AGAINST
Sofa structure & frame	Up to 3 years	Defects
Foam & cushion materials	Up to 2 years	Defects
All other LSA furniture — beds, tables, chairs, outdoor	Up to 1 year	Manufacturing defects
Borer & termite in solid wood furniture	Lifetime	Covered
Brand-partner furniture	Manufacturer term	Per brand partner

Applies to all sofa types — 1, 2 & 3-seaters, sectionals, ottomans and sofa-cum-beds. Residential use only.

NOT CONSIDERED DEFECTS

- Natural wood variation — grain, colour, mineral streaks, knots, and hairline movement from seasonal expansion and contraction.
- Gradual softening and flattening of cushion foam with regular use.
- Handmade variation — minor differences in size, shape, finish and fabric pattern.
- Surface finishes mellowing with age and light.

EXCLUDED FROM COVER

- ✗ Upholstery — fabric, leather, vegan/PU leather — against usage wear, fading or shrinking.
- ✗ Colour fading from sunlight; damage from moisture or outdoor exposure of indoor pieces.
- ✗ Rough handling, misuse or accidents — e.g. standing on tables, leaning chairs on two legs, jumping on sofa seats.
- ✗ Alterations, retouching or repairs by anyone not authorised by LSA.

Lifetime protection against borer & termite. Every solid wood piece we supply carries a lifetime warranty against borer and termite infestation — our commitment to the timber we select.

05 — On-Site Services

How service cover works

Painting, false ceiling, electrical and plumbing work executed by LSA is warranted for **1 year** from handover or move-in (whichever is earlier), governed by LSA's site quality standards. Cover tapers with time — the earlier an issue appears, the greater our share of the repair.

TIME SINCE HANDOVER	LSA'S SHARE OF REPAIR COST
0 – 3 months	100%
4 – 6 months	75%
7 – 12 months	50%

Applies uniformly to Sections 06 – 09. Repair covers the identified defect; additional work requested during a visit is chargeable.

ELIGIBILITY THRESHOLDS

PAINTING

Painted area exceeds **500 sq ft**, inspected by an LSA representative.

GYPSUM FALSE CEILING

False-ceiling area exceeds **150 sq ft**, using the LSA-approved material system.

ELECTRICAL WORK

Total electrical work value exceeds **₹50,000**, with LSA-approved wiring throughout.

PLUMBING WORK

Total plumbing work value exceeds **₹50,000**, system unmodified since installation.

CONDITIONS SHARED BY ALL SERVICE WARRANTIES

- The work is maintained per LSA care guidance, used for its designed purpose, under regular domestic use.
- The work remains at its original installed position, unmodified by anyone LSA has not authorised.
- Repairs and replacements use materials currently available in the market — where an exact SKU is unavailable, a close equivalent may be substituted and finish may vary slightly.
- Unauthorised repair work automatically voids cover for the affected area.

06 — On-Site Services

Painting

 1-YEAR · TAPERING COVER

Interior paint — plain, texture & geometric

Wood & metal paint

Polishing & refurbishment

Wallpaper base preparation

Interior waterproofing

COVERED FAILURES

- ✓ **Film integrity.** Flaking or peeling — a coat separating from another, or the film detaching from the wall.
- ✓ **Bubbling.** Paint bubbles arising from application error.
- ✓ **Significant fading.** Colour fading beyond normal light exposure.
- ✓ **Fungal or algal growth** appearing on painted surfaces.

NOT COVERED

- ✗ Peeling, bubbling or blistering caused by moisture intrusion — seepage, capillary rise, leaks or persistent dampness.
- ✗ Cracks from structural movement, or failure of previous coatings and substrates.
- ✗ External walls and outdoor surfaces; areas where water naturally collects.
- ✗ Ordinary wear, abrasion, mechanical damage, and natural chalking or minor fading.
- ✗ Damage from corrosive agents, contaminants, pest-control chemicals, or contact with vegetation, AC drip and plant pots.

Eligibility. Applies where the total painted area exceeds **500 sq ft** and the full LSA-recommended paint system was used — primer undercoat, putty coats and finish coats as specified. Claims are subject to inspection by an LSA representative.

Claim it early. Within the first 3 months LSA bears **100%** of the repair cost. Message Priya on WhatsApp the moment you notice an issue — photos help us resolve faster.

07 — On-Site Services

Gypsum False Ceiling

 1-YEAR · TAPERING COVER

Gypsum ceiling

Cove ceiling

Grid ceiling

POP work & grooves

Light gala cutting

COVERED FAILURES

- ✓ **Board integrity.** Flaking, peeling or detachment of jointing compound or board materials.
- ✓ **Surface cracks** caused by material or workmanship faults.
- ✓ **Sagging or joint separation** traceable to installation error.
- ✓ **Fungal or algal growth** on ceiling surfaces.

NOT COVERED

- ✗ Issues from structural movement of the building or failure of the surface the ceiling is fixed to.
- ✗ Water exposure of any kind — leaking pipes, seepage, condensation, steam or AC drip contacting the ceiling.
- ✗ Cracks from client-mounted loads — chandeliers, heavy light fittings or appliances added after handover.
- ✗ Damage during downlight replacement or other work by non-LSA personnel.
- ✗ Impact damage, smoke or chemical vapour exposure, and organic growth from sustained environmental damp.

Eligibility. Applies where the total false-ceiling area exceeds **150 sq ft** and the complete LSA-approved material system was used. Mixing non-approved boards, channels or compounds voids cover.

A note on ceiling fittings. Planning to add a chandelier or heavy fixture later? Tell us first — we'll advise on reinforcement so the addition doesn't void your ceiling cover.

o8 — On-Site Services

Electrical Work 1-YEAR · TAPERING COVER

Circuit wiring

New & relocated points

Fixture installation — fans, lights, exhausts

Switchboards

TV / network / telephone cabling

COVERED FAILURES

- ✓ **Short circuits or tripping** caused by installation or material defects.
- ✓ **Loose contacts.** Faulty connections in plugs, switches or circuit components.
- ✓ **Installation defects** in wiring, circuit work or fixture mounting within LSA's scope.

NOT COVERED

- ✗ Faults from supply fluctuation, voltage surges or improper input at the mains.
- ✗ Failures from water penetration or continuous dampness affecting components.
- ✗ Overloading — incompatible or high-draw appliances on points not rated for them.
- ✗ Work upstream of the distribution board — main lines, power provision and heavy-duty cabling remain the client's responsibility.
- ✗ Physical damage to conduits, wires or plates, and any repair or modification by non-LSA personnel.

Eligibility. Applies where total electrical work exceeds ₹50,000, LSA-recommended wiring is used throughout, and supply conditions at handover were verified free of voltage issues. Replacement switches and wiring are subject to market availability — a similar SKU may be substituted where the original is discontinued.

Concealed systems — don't open the wall. Report a suspected fault promptly and let our electrician trace it. Opening walls, boards or conduits before an LSA inspection voids cover for that circuit.

09 — On-Site Services

Plumbing Work

 1-YEAR · TAPERING COVER

Fixture installation

Inlet / water point creation & relocation

Outlet / drain point creation & relocation

Internal supply & drain lines

COVERED FAILURES

- ✓ **Leakage** in plumbing or sanitary pipes installed by LSA, including at joints.
- ✓ **Manufacturing defects** in pipes and fittings supplied by LSA that affect function.
- ✓ **Clogging** caused by errors in the original installation.

NOT COVERED

- ✗ Scaling and deposits on taps, showers and metal fittings from hard water; failures driven by water quality.
- ✗ External lines — terrace-to-floor and floor-to-ground runs, mains, ducts, drainage, sewage and soak pits remain the client's responsibility.
- ✗ Fixtures and materials not supplied by LSA — tiles, taps and fittings the client sourced.
- ✗ Physical impact, mishandling, ground or structural movement affecting pipes.
- ✗ Any modification or repair by personnel not authorised by LSA.

Eligibility. Applies where total plumbing work exceeds ₹50,000 and the system installed by LSA is used without modification. Replacement pipes and accessories are subject to market availability — brand or model of a substitute may vary.

Spot a leak? Shut the valve, message Priya. Close the nearest stop valve, photograph the leak, and WhatsApp it with your Project ID. Water damage to finishes grows by the hour — early tickets protect both your home and your cover.

10 — Making a Claim

Four steps. One WhatsApp message.

1

Register

Message Priya on WhatsApp within 7 days of handover to activate cover. Keep your Project ID handy.

2

Report

Notice something? Send a photo and your Project ID within 3 days of spotting it. Your ticket is logged instantly.

3

Inspect

An authorised LSA representative inspects on site. Please don't repair, open up or tamper before we've seen it.

4

Resolve

We repair or replace per this charter — and confirm with you when the ticket is fully closed.

YOUR RESPONSIBILITIES

- **Access.** Make the affected area accessible for inspection and repair visits.
- **Care.** Follow the care guidance in Section 12 — non-compliance can void a claim.
- **No self-repair.** Corrective work by unauthorised personnel nullifies cover for that product.
- **Timely reporting.** Claims reported after the 3-day window may be ineligible.

REPAIR & REPLACEMENT POLICY

- **Sole remedy.** For a covered defect, LSA will — at its option — repair or replace the affected product or component. Where neither is commercially feasible, LSA may offer a credit toward an equivalent product.
- **Availability.** Replacements follow the current product line; discontinued items are matched with the closest equivalent.
- **Finish matching.** An exact match with adjacent finishes cannot be guaranteed on older installations.
- **Beyond the defect.** Repainting, refinishing or reinstalling items that must be moved to reach the defect — and any extra work you request — is chargeable.

One ticket line for everything. Warranty claim, service request or a simple question — WhatsApp Priya at +91 90190 33380 or write to contact@lintelspace.com. Every message with a Project ID becomes a tracked ticket with a Lintel specialist accountable for it.

11 — Governing Terms

General Terms & Conditions

- **Commencement.** The warranty begins on the date you register it with LSA — on WhatsApp or by email, providing your project and contact details — within 7 days of handover or move-in, whichever is earlier.
- **Claims.** Report any defect within 3 days of discovering it, with your Project ID.
- **Inspection.** LSA reserves the right to inspect and test, itself or through a nominated representative, before any remedy. Do not repair, remove or tamper with the product before inspection.
- **Settlement.** After a claim is settled the warranty period does not restart; replaced parts carry the remainder of the original term.
- **Liability.** LSA will complete repairs as promptly as it reasonably can but is not liable for delay, and does not provide alternative accommodation during repair work.
- **Exclusions.** Defects arising from factors outside LSA's control are not covered — natural calamities, fire, flood, vandalism, abuse or negligence, contaminated surfaces, structural failure or prior coatings, and other external factors.
- **Additional work.** Any work beyond the identified defect is chargeable and borne by the client.
- **Scope.** This charter is LSA's only express warranty; it cannot be extended or modified by any representative, and supersedes prior versions at the time of claim.

— Dispute Resolution

- These terms are governed by the laws of India; the courts of Bengaluru hold exclusive jurisdiction over any claim or dispute.
- Both parties shall maintain confidentiality regarding any dispute.

12 — Caring for Your Lintel Home

A little care keeps the cover.

Following this guidance keeps your home beautiful — and your warranty valid. Retouching, repainting or modifying any product yourself voids its cover; ask us instead.

Modular kitchens, wardrobes & storage

- Wipe moisture promptly with a soft dry cloth — standing water can stain, swell or warp panels.
- Avoid harsh, acidic or abrasive cleaners; clean hardware with a soft brush or mild glass cleaner.
- Never use petroleum-based chemicals on acrylic or membrane surfaces, or acid near steel hardware.
- Respect load limits on shelves and drawers; don't lean or hang weight on shutters.
- Use trivets and coasters — direct heat damages finishes.
- Service chimneys with the brand every 6 months; clean steel sinks with a nylon pad only.

Solid & engineered wood

- Clean with a lightly damp cloth and wipe dry immediately; avoid ammonia and alcohol-based products.
- Never place hot, cold or wet items directly on wood — use mats and coasters.
- Rotate décor pieces occasionally so sunlight mellows the surface evenly.
- Expect nominal seasonal expansion and contraction; keep indoor humidity near 40–50%.

Upholstery & sofas

- Dust regularly with a soft brush or vacuum with the upholstery attachment.
- Flip, rotate and fluff cushions regularly to even out wear.
- Blot spills immediately; use a mild fabric cleaner after a patch test on a hidden area.
- Keep sharp objects away and avoid direct, prolonged sunlight.

All products — the golden rules

- Keep everything dry; avoid outdoor exposure of indoor pieces.
- Don't detach fixed products from their installed position.
- No DIY polish, paint or retouching — professional retouching outside LSA also voids cover.
- Use furniture for its intended purpose; supervise young children around shutters and mechanisms.
- Periodic professional cleaning is recommended; refer to brand care guides for appliances.

Unsure about a cleaning product or fix? Message Priya before you try it. Thirty seconds of asking beats a voided warranty.

Built once. *Backed for years.*

Keep this charter with your project documents. Register within 7 days of handover, save Priya's number, and your whole home stays a message away from care.
